A CLOSER LOOK

Helmet

The iron helmet was forged from one piece of metal and lined with leather. Crests made of dyed horsehair indicated rank. Plates hung down along the cheeks and another plate protected the back of the neck and shoulders.

Breastplate

The iron or bronze scaled armor was built in four sections to cover each shoulder and side of the chest. The plates were sewn to a stiff leather vest, which was put on like a jacket before the front plates were tied with leather straps.

Sword

The sword was carried on the right side and hung from the belt or a leather strap over the shoulder.

Belt

The leather belt was tied around a wool tunic. Connected bronze plates hung from the belt to protect the soldier's groin area.

Shield

The curve was created using three bonded layers of thin wood strips. Covered by linen or leather, the shield was painted according to legion. A bronze rim covered the rounded edges as additional protection.

Sandals

Thick leather soles, embedded with hobnails or bits of rock for increased traction, were tied to the feet with numerous leather straps.

The Armor of God

The Apostle Paul, inspired by God, wrote a letter to the church of Ephesus from a Roman prison. As he wrote, Roman soldiers guarding the prison walked about in the armor of first century legionary.
